**DOCUMENTARY FILMMAKING
AND VIDEO PRODUCTION**

GEN2GEN MEDIA

Thank you for your interest in Gen2Gen Media, LLC. Our mission is to create short documentaries and videos that inspire and inform present and future generations. The Gen2Gen team are visual storytellers dedicated to inspiring others by the content we create.

YOUR STORY

Tell the history, showcase the vision, or successfully promote your business. These short documentaries or videos are perfect for emerging businesses looking to enhance their business website, businesses/organizations celebrating milestone anniversaries, or families honoring their history.

"The video turned out to be the highlight of our celebration and received a standing ovation at our reception. We highly recommend them and would use them again."

GEN2GEN PROCESS

CONSULTATION

To begin the process, we will schedule a phone consultation. We will exchange ideas, select interviewee(s), finalize a date, time, and preferred location for the on-camera interview and business shoot.

FILM YOUR PROJECT

The Gen2Gen team will film interviews and b-roll once a location, date and time have been determined. We will need 30 minutes to set-up our camera, lights and any additional filming equipment. Interviews can last 30 and 60 minutes.

EDITING

The Gen2Gen team will edit your footage and include additional photos, documents, images, and previously-recorded videos. All materials will be digitized into our editing system to be included in your story. The editing process takes about 10 to 12 weeks.

WATCH

Gather around the television or laptop and watch your Gen2Gen Story!
